Dr. Jonas Ludvigsson

Karolinska Institutet
Stockholm, Sweden

Clinical manifestations of COVID-19 in children and in adults

Jonas F Ludvigsson (Jonas Ludvigsson – Wikipedia) is former Chair of the Swedish Society of Epidemiology and currently shares his time between a position as pediatrician at Örebro University Hospital and professor at the Department of Medical Epidemiology and Biostatistics, at Karolinska Institutet.

During 2020, he has seen many children with COVID-19 but also written three articles about COVID-19 (1-3), the first of which has been cited more than 400 times according to Google Scholar (1). Jonas will give a talk about the clinical manifestations of COVID-19 in children and in adults, based on a paper published in Nature Medicine this summer.

1. Ludvigsson JF. Systematic review of COVID-19 in children shows milder cases and a better prognosis than adults. Acta Paediatr 2020.
2. Ludvigsson JF. Children are unlikely to be the main drivers of the COVID-19 pandemic - a systematic review. Acta Paediatr 2020.
3. Ludvigsson JF. The first eight months of Sweden's COVID-19 strategy and the key actions and actors that were involved. Acta Paediatr 2020.
