Dr. Roberto De Vogli

University of Padova

Italy

The COVID-19 syndemic and the 4T (testing, tracing, treating, timely) model

Roberto De Vogli is an Associate Professor and Vice-Director of the Human Rights Centre at the University of Padova. Previously, he worked as an Associate Professor at the School of Public Health, University of Michigan and Department of Public Health, University of California Davis. He also worked as Senior Lecturer in Epidemiology and Public Health at University College London. His education includes a PhD and a Master in (Global) Public Health (minor in Public Policy) at the University of California Los Angeles (UCLA).

The objectives of this presentation are twofold: (1) addressing the socioeconomic determinants of the COVID-19 crisis and how political economic and environmental conditions affect predisposing factors for high mortality and morbidity due to COVID-19; (2) assessing the best policy responses worldwide in tackling both the health and socioeconomic crises caused by COVID-19.
