

EFFECTIVE AND EFFICIENT KNOWLEDGE TRANSFER: PUBLISH AND FLOURISH

Linda Pagani - *Professor at the School of Psycho-Education of
the Faculty of Arts and Sciences at the Université de Montréal*

Discover how to write, publish, and promote academic research effectively in today's competitive "impact factor" world. In this inspiring and practical talk, Professor Linda Pagani - drawing from decades of experience in research, teaching, and scientific publishing - shares strategies to help researchers, PhD students, and academics produce high-quality papers and grants more efficiently.

The session explores:

- Smart and efficient scientific writing
- Structuring impactful papers and grants
- Successful submissions and resubmissions
- Writing compelling abstracts and cover letters
- Avoiding common writing pitfalls
- Communicating research to the media and the public
- Academic writing in clear, reader-friendly English
